

City of Bowie

15901 Fred Robinson Way
Bowie, Maryland 20716

May 12, 2022

Dear Resident:

The City of Bowie has contracted with Environmental Quality Resources, LLC to repair the drainage basin at the intersection of Pin Oak Parkway and Hall Road in the Tall Oaks Crossing neighborhood. Due to supply chain constraints, construction is now scheduled to start in June 2022 and complete in September 2022.

The enclosed figure provides the project site location. The proposed work includes demolition of existing infiltration basin and installation of submerged gravel wetland with associated appurtenances to improve the stormwater management system in the project area.

Work will be performed Monday thru Friday, 7:00 a.m. to 6:00 p.m. Short disruption to traffic flow may be required periodically, but no road closures are expected. Temporary sidewalk closures may be required for a brief period. Access to driveways will be maintained at all times. When required, the contractor will make timely notification to affected residents. Upon completion, disturbed areas will be restored.

Should you have any questions please contact the City's project manager, Mr. Kui Lin, at 410-948-7948 or kui.lin@kci.com.

Sincerely,

Hong Yin
Assistant Public Works Director
